

AN OPEN LETTER TO ALEXANDRIA OCASIO-CORTEZ

November 16, 2021

Dear Congresswoman Alexandria Ocasio-Cortez,

I am a candidate for the Republican Party's nomination to Congress in Florida's 3rd District. You claim to have entered politics to fight political corruption that hurt your family in court. That is a lie. You were created by Critical Race Theory advocates and the Black Lives Matter (BLM) organizations. They created you to advance their Marxist corruption that is far more dangerous than any other form of corruption. I entered politics to fight Marxism in America, and so my fight is with you and the leaders in Congress on both sides who control the nation's judicial and legislative policies.

I was appalled by your conduct towards Ted Yoho while he was representing Florida's 3rd District as a Congressman. You fabricated the story that Congressman Yoho called you a "F**king Bitch" to distract the public from the BLM and Antifa looting that was occurring throughout the country. Your malicious ploy worked. The Fake News media focused on Ted Yoho, and your hysterics made Congressman Yoho a target for the Left who impinged on his liberty and even threatened the Congressman's life. The establishment reacted by coercing Congressman Yoho to apologize for something he did not do. Even after Congressman Yoho apologized, you did not stop. You hurled insults at Congressman Yoho's apology and character, and you inflated your accusations to attack all men. Then you posted a video of yourself dancing in front of the US Capital building to a song titled "Boss Bitch."

Americans are not fooled. We know right from wrong. We can discern the truth for ourselves. We are repulsed by your nonsense and the moral absurdities the establishment in Congress used to side with you and the Left.

You are the one that must be disciplined. Your lies are destroying churches and families, and cancelling free speech and religion in America. You are responsible for indoctrinating our youth with the falsehood that America is a racist nation, that biology does not matter, and that abortion is exclusively a feminist issue. You are the one who endangers public safety and private

property by promoting insane policies to defund the police. You are the one promoting open borders, calling to close the ICE that encourages foreigners and federal judges to break US immigration laws.

I am running to enforce the Constitution and believe - as all of the Founders did - that God endowed man with unalienable rights to protect their liberty and happiness. I am running to stop you from destroying the Constitution and every America's right to life, liberty, and the pursue of happiness.

I challenge you to a debate on these issues. The proposition of this debate is whether your radical secularism -- the belief that that there is no such thing as "right" and "wrong" -- has destroyed truth and reasoning. I will show you and your Leftist followers that truth and morality do not change whether you are black or white, or rich or poor, or man or woman. I will hold the establishment accountable for the violations of the Constitution that brought you and immorality into our judicial system. Through this debate, I will expose how the establishment has aligned with the Leftists to ruin the integrity of America's courts, borders, the 2020 census and presidential election. Judges that lie are the real tyrants. I will show how we can solve these problems simply by stopping politicians from violating the Constitution and its separation of church and state under God and a renewed commitment to the belief that America a Blessed Nation the power to fight back against you and even the establishment.

The people of Florida are tired of Leftist politicians and lawyers and judges fabricating lies and violating the Constitution to destroy truth and reasoning. I have a plan to take back our country from the Socialists and Leftists who are trying to dismantle basic American values. When I get to Congress, I promise that your reign of terror will be over.

Sincerely,

Manuel P. Asensio

AN OPEN LETTER TO CONGRESSWOMAN KATHRYN CAMMACK

November 17, 2021

Dear Congresswoman Kat Cammack,

I am challenging you for the Republican Party's nomination to Congress in Florida's 3rd District. My campaign is against you and the political corruption that you depend upon.

You are a creation of the same Republican leaders in Congress that chose to defend Congresswoman Alexandria Ocasio-Cortez (AOC) against your predecessor, Congressman Ted Yoho. The Republican leadership chose to coerce Congressman Yoho into apologizing for something that he did not do. As a result, AOC and her Marxists cronies were able to cancel the truth and advance their anti-American agenda. Afterwards, AOC had the audacity to celebrate by dancing to a song that glorifies vulgarities using the US Capital building as a backdrop. I addressed AOC's misconduct in a letter to her that I published yesterday.

You have failed the 3rd District in the Ted Yoho matter. This shows you cannot be trusted to stand up for our America's most sacred values and principles. By the same token, we cannot trust you to be independent and effective in matters related to the 2020 Census, election integrity, our citizenship, borders, civil, pro-life and gun rights, inflation, and the budget deficit.

As a candidate for Congress, I am acting. My letter serves notice on AOC. It exposes AOC's corruption and seek to hold her accountable. I investigated the case, discovered the truth, and acted. Why didn't you? Because you have to go along with the leadership that created you and supports you.

Whereas I am working to enforce the Constitution against AOC and in favor of Congressman Yoho, you have joined the political corruption that created AOC.

As a candidate, I am applying my zero-tolerance policy towards the Left's and establishment's efforts to destroy due process, equal protection, and individual rights. While you are hiding behind Washington's corrupt bureaucracy, I am shedding light on how the establishment has allowed the Left to ruin the integrity of America's legislative process.

Congressman Yoho fought hard against the Washington establishment that profits from political gamesmanship. Perhaps that is why the Congressman kicked you out of his Washington office and reassigned you to Florida “for reasons not to be disclosed.”

The Left has taken over America’s freedom of speech and religion. The Left is winning because you and the establishment are collaborating with them to violate the Constitution. The people of the 3rd District will not stand for an establishment cat with no answers and no plans—they want a lion who will defend their rights and the Great American spirit of freedom and independence. This is why I am challenging you.

Sincerely,

Manuel P. Asensio

OPEN LETTER REGARDING YOUR STANCE ON THE 1619 PROJECT AND RACIAL ISSUES

November 25, 2021

Dear Congresswoman Kathryn Cammack,

I trust you read my letter concerning Congresswoman Alexandria Ocasio-Cortez and our honorable former Congressman Ted Yoho. That letter dealt with the use of radical feminism against truth. In this letter, I deal with your stance on the use of slavery to destroy America's foundation. I am the movant at the US Judicial Conference in a consideration of the federal government's treatment of family liberty. Thus, I am appalled at your evasive and disingenuous treatment of the 1619 Project, which is an overt Marxist plot to indoctrinate school children and invade families and churches.

When you were elected, you were asked how you planned to deal with the 1619 Project. You gave no answer. You failed to denounce the 1619 Project and showed that you entirely lack an understanding of the existential danger the 1619 Project presents to America. This is unacceptable for a member of Congress. It demonstrates you have no plan to win the war against the Left. It shows you to be a defeatist who accepts the takeover of our federal government and media by radical feminism and secularism, and Black Lives Matter and critical race theory advocates. It proves that you are willing to give up American liberty and truth.

The 1619 Project concerns the bald-faced lie that America was not founded in 1776 but in 1619, when approximately twenty African slaves came ashore at the Jamestown colony. The New York Times deliberately fabricated and promoted the story and has refused to make correction to the falsehoods they published. The New York Times asserts that racism runs in the blood of our country and that our American ideals were false when written and are still false today. The 1619 Project lies when it says the Founders declared the colonies' independence from Britain's king and all kings to ensure slavery would continue, not to create a government that retained God-given liberties.

Because you did not answer, I will answer for you as part of my campaign to win the Republican Party's nomination for Congress in Florida's 3rd District.

America was conceived during the First Continental Congress in 1774 and at the Philadelphia Convention, which led to the signing of the U.S. Constitution on September 17, 1787. America's first principles were formed by the Fifth Virginia Convention in Williamsburg, Virginia, which led to the signing of the Virginia Declaration of Rights on June 12, 1776. America was formed by events and battles that occurred between that congress and the Second Continental Congress in 1776, which ultimately issued the Declaration of Independence. Finally, America approved the Bill of Rights amendments to its Constitution on December 15, 1791. This established our civil rights as black letter law.

The truth is that slavery was normal throughout the world and remains in Pakistan, Bangladesh, India, China, and various parts of Africa. Slavery was central to life in ancient Egypt, Greece, Rome, and Asia and in the Inca and Aztec empires.

The motives underlying the lies about racism in America repulse me. The 1619 Project is designed to harass innocent Americans and violate their inalienable rights. It is one of the federal policies targeted in my smoking gun campaign; this is what I call "civil rights corruption."

Inventing preposterous notion for the malicious purpose of coercing and insulting honest Americans is the anti-thesis of American ideals and constitutional law. It can be done only to destroy liberty and create a dictatorship in America to invade religion and family liberty. Political corruption is the only way such malicious attacks on good Americans can be enabled. This is the only force that could enable social media to censor a sitting American president.

In closing, I remind you of Psalms 11:3 and 82:3: "When the foundations are being destroyed, what can the righteous do?" and "They know not, either will they understand; they walk on in darkness: all foundations of the earth are out of course." These verses deal with the frustration that godly people suffer when what they have built is destroyed.

I now condemn your stance on racial issues as I have condemned your siding with the Republican establishment's policy of favoring radical feminism against truth. I have challenged you to an open, honest, and civil debate, even by letter, on civil rights, freedom, and liberty.

I look forward to hearing from you promptly. Thank you, and God bless America.

Sincerely,

Manuel P. Asensio

OPEN LETTER REGARDING YOUR FEDERAL JUDICIARY POLICY AND STANCE ON VIOLATIONS OF CONSTITUTIONAL LAWS OF SEPARATION

December 1, 2021

Dear Congresswoman Kathryn Cammack,

I am challenging you for the Republican Party's nomination to Congress in Florida's 3rd District. My campaign is against you and the corrupt political establishment that created you.

On November 25, I asked how you planned to fight the depraved Leftist ideas that are destroying our once-great nation: the 1619 Project, the use of slavery to destroy America's history, and the indoctrination of our youth with Marxist ideologies. On November 17, I asked how you planned to deal with Congresswoman Alexandria Ocasio-Cortez for her false accusations against the honorable former Congressman Ted Yoho. You have not responded because you have no answers and are incapable of standing up for the Constitution, American justice, and morality.

Today, I want to know how you intend to fix our wholly corrupt federal judiciary policy. The resounding failure of this policy has allowed the Left to take over our country. This disastrous policy is the reason for the prominence of the Left's radical economic, immigration, secular, racial, and feminist policies. It is this federal government policy that has enabled the Left to capture our universities and media. The moral vacuum left by federal judges is destroying truth in America. Our disastrous federal judiciary policy has moved further and further away from a strong Christian nation based on the separation of powers and the separation of church and state created to protect truth. Are you even aware of this problem? If so, what do you intend to do about it?

For my part, I have made a legal filing at the U.S. Judicial Conference that challenges our federal judiciary policy and the federal government's treatment of family liberty and the attacks on the Trump Administration's power to conduct the execute its immigration policies. I have discovered how the federal government's domestic relations and domestic violence policy was fabricated. I have uncovered the private agreements to violate the Constitution's separations laws to take control of religion and parenting rights. These secret associations, secret proceedings, and secret oaths have no place in American government.

I am running for your seat because I understand how it all ties together. I will fight the corruption in our federal judiciary that manifests itself in disturbing ideas such as the 1619 Project and Ocasio-Cortez's

Marxist notions about stealing, masculinity, nonbinary sexuality, private property, and global warming. This kind of political operation has no place in America—not in our inflation and deficit spending policies, not in our immigration laws, and most certainly not in our families and churches.

I know the Republican establishment did not put you in your seat to deal with these issues. The establishment that created you would rather ignore its citizens' rights and liberties than tackle the civil rights corruption that is rampant in our federal judicial system. The establishment knows you do not care about or understand these issues and do not have the fortitude to fight for what is right. I am running because I am an experienced freedom fighter for individual rights, and I will not rest until I have defeated the forces of corruption that plague our nation.

Republicans in Florida's 3rd Congressional District are entitled to hear us discuss these issues directly, civilly, and fully. They would be repulsed to learn that you and others in their own party are working to cancel our debate and conceal the truth about your political loyalties.

I look forward to your response. Thank you.

Sincerely,

OPEN LETTER REGARDING YOUR STANCE ON ABORTION AND JUDICIAL MISCONDUCT

December 6, 2021

Dear Congresswoman Kathryn Cammack,

I am challenging you for the Republican Party's nomination to Congress in Florida's 3rd District. My campaign is against you and the corrupt political establishment that created you. This is the fourth policy inquiry that I have made of you.

Like many conservatives, I followed the Supreme Court's proceedings on the *Dobbs* case and I am pleased that *Roe v. Wade* will likely be overturned. That decision was a disgrace for our country and abomination against God. But I am not so quick to celebrate, because I know that the system that created *Roe v. Wade* is still alive and well. In your ignorance, I am sure you never wondered how the judge-made policy underlying *Roe v. Wade* was created and allowed to exist for five decades. I have dedicated my professional life to this problem and I am running to replace you so that I can solve it.

On January 22, 1973, seven members of the Supreme Court ripped the Constitution to shreds and ripped out the life of millions of unborn children. They also created false moral political entitlement in women. Their decision was not based on any legal or moral code, but rather on the absurd idea that "shadows" in our Constitution protected the right for women to kill babies regardless of circumstances. This was a monumental crime of constitutional law, and unfortunately due to unholy political deals our federal judges commit crimes like this every day. It is the reason fathers are falsely accused of domestic violence and custody of their children is stolen from them without recourse, why the government routinely favors one American over another through no fault of their own and why massive election and census fraud is buried and ignored.

When I am elected to Congress, I will expose the few in Congress that enable the Federal Judiciary to make up laws that have destroy free speech and free press, that erode our democracy and violate our religious freedom. I will accomplish this by amending the Judicial Conduct Act that is intended to end impeachment as the only process to hold Federal Judges accountable for transgressing the Constitution.

I want to know what you are going to do about these problems. Do you have a plan? What is it?
I look forward to your response. Thank you.

Sincerely,

OPEN LETTER REGARDING JUDICIAL CORRUPTION AND DEMAND FOR DOCUMENTS

December 10, 2021

Dear Congresswoman Kathryn Cammack,

I am challenging you for the Republican Party's nomination to Congress in Florida's 3rd District. My campaign is against you and the corrupt political establishment that created you. This is the sixth policy inquiry that I have made of you. I look forward to seeing later today and would like to commence our policy discussion on the topic of judicial corruption.

After a highly successful career in finance, I dedicated my professional life to fighting judicial corruption in matters concerning speech, religion, and family. This led me to create the Institute of Judicial Conduct the nation's leading independent expert on the laws governing the federal judiciary. I have carefully studied the traditional Judeo-Christian values that are enshrined in the US Constitution and have defined this country for centuries. As the Founding Fathers taught us, our democracy requires judges to uphold and protect these traditional values. When judges fail in that basic duty, the result is: (a) massive deficits, debt, and manipulation of both interest rates and inflation rates, (b) civil rights corruption like the 1619 Project, Black Lives Matter, and Critical Race Theory, (c) instructing our children about non-binary genders, (d) election and Census fraud, and (e) immigration crises.

My investigation has uncovered a fatal flaw in the system: Federal judges are manipulating our culture and democratic process. This is occurring behind closed doors at the US Judicial Conference, the Administrative Office of the US Courts, the Federal Judiciary Center, and the Federal Judiciary Center Foundation. Unbeknownst to the American people, these entities are illegally fabricating national public policy that become de facto unconstitutional laws.

As a member of Congress, you are undoubtedly aware of the covert communications that occur on a regular basis between the representatives of chief judges of the US Court of Appeals and

Congressional leaders. You have seen the pernicious effects of judicial influence on matters related to immigration (striking down President Trump's efforts to eliminate DACA and the citizenship question in the 2020 Census), the budget (allowing laws that facilitate runaway deficit spending), and abortion and parental rights (creating the domestic relations and domestic violence exception).

Do you agree that this corruption is the greatest threat to America's security and freedom, stable administration of its immigration laws, the protection of private property, and continued economic growth, prosperity, and democracy? How can you justify standing by and doing nothing while Americans suffer?

True patriots would never allow corruption to run so deep among judges without acting. That is why I am demanding that you release all information and communications to Congress coming out of the US Judicial Conference, the Administrative Office of the US Courts, the Federal Judiciary Center, and the Federal Judiciary Center Foundation. Please start with any communications from any Federal Judge about the law that the House passed on Tuesday paving the way for an increase in the debt ceiling and more runaway spending from our runaway government. The American people have a right to this information, and you have an obligation to produce them.

These documents will expose the judicial corruption that has brought Marxism and radical secularism into our immigration policies, civil rights policies, our schools, and our society. Once Americans know the truth, we will be able to stop it dead in its tracks.

I await your response.

Sincerely,

Manuel P. Asensio

OPEN LETTER REGARDING KAT'S POLICY ON HONESTY

December 15, 2021

Dear Kat:

I am seeking the nomination from the Republican Party for Congress in Florida's 3rd Congressional District. There is nothing benevolent about secret associations, secret proceedings, and secret oaths in a democratic republic. Do you agree that our democracy thrives on open debate and the free exchange of ideas? If so, then why are you trying to crush debate and hide our important policy differences from the voters?

It is our duty as leaders to be honest, to engage each other civilly in good faith, with mutual respect. The People of Florida and the 3rd Congressional District are entitled to know the truth about why you and I are running for Congress.

Our differences are obvious. I have a concrete solution to restore facts, reasoning, and honesty in the federal government and national media. I have exposed your ignorance about the New York Times' 1619 Project, critical race theory, and Black Lives Matters and the serious danger that they present to our nation and our children.

I have shown that you are a creation of the same Republican leaders in Congress that chose to defend Congresswoman Alexandria Ocasio-Cortez (AOC) against your predecessor, Congressman Ted Yoho. The Republican leadership chose to coerce Congressman Yoho into apologizing for something that he did not do. As a result, AOC and her Marxists cronies were able to cancel the truth and advance their anti-American agenda.

Finally, and most importantly, I have shown how you are covering up the deficiencies in the laws that govern federal judicial conduct and concealing the problems with the Republican Party's federal judiciary policy in the House of Representatives.

I challenge you to stop playing games with our voters. Let us engage in an open honest conversation so that the voters can discern the truth, the whole truth, and nothing but the truth.

Let us honestly make the voters aware of our stark differences and let them decide the truth.

I look forward to your response. Thank you and God Bless America.

Sincerely,

OPEN LETTER REGARDING FEDERAL GOVERNMENT'S SUBVERSION OF JUSTICE IN FAMILY LAW AND THE 2020 PRESIDENTIAL ELECTION TO KAT CAMMACH

January 19, 2022

Dear Kat:

I am writing you today in anticipation of the Republican Party of Clay County's vote on their endorsement in Florida's 3rd Congressional District (FL-3). This is the 8th open letter I have served on you. They serve to establish the profoundly serious factual and policy disputes between us. They demonstrate how your passiveness and lack of care is working to make you complicit in the Left's treasonous plot against the American People and our Constitution.

Like President Trump, I suffered a great loss as a result of the Left's subversion of justice in America. President Trump suffered the betrayal of all federal judiciary policy advisors in the Department of Justice, the White House, his campaign, and his Vice President. It cost the Office of the American Presidency a great loss of power to execute its duty to take care of law, and it cost all Americans a presidential election to fraud. See the Appendix following this letter.

My loss as a result of the subversion of justice in America was personal. I lost Eva, my only daughter, when she was just 11 years old. Like Trump, I was defenseless in the face of a subversion of justice in America. Like Trump, I fought back and am still fighting. Our opponents are one in the same: The federal judges and the nation's leader of its federal judiciary policy.

To illustrate the importance of the subversion of justice to all parents, Americans, and to President Trump, I wrote, produced, and directed a comic book titled "Trump Unites All Americans." I published it during the height of the events that ruined the integrity of the 2020 Presidential Election.

Saving America from the Leftists begins and concludes with Congress ending its passive approach to the subversion of justice by the Left.

It took me eleven years to compile the information necessary to file the nation's first criminal indifference to family rights case against the federal government, as well as the first consideration of family rights under the U.S. Judicial Conduct Act of 1980. Together this criminal indifference action and consideration proves not only how justice has been defeated in family law, but how presidential power and law were also overtaken in the 2020 Presidential Election. The Consideration exhibits how members of Congress on both sides have allowed the Left to take control of America. It is a blueprint for a successful fight against this corruption.

I am running against you because, among other matters, you are covering-up the federal government's subversion of justice in Congress that is affecting all Americans. It is clear that you are closer to a passive member of the Resistance to the fundamental philosophies of freedom and independence that underlie President Trump's support than Trump's ally.

The fabrication and enforcement of illegal policies by the Resistance must be fought, and you will not even acknowledge the existence of the problem, yet you claim to be a Trump ally.

Only Congress can take control and correct the destruction of justice by the federal judges and the Department of Justice. President Trump had the executive power political power to do so, but he could not do it alone even while in the White House. Trump needs an active, fully informed leader in Congress who know how to deal with the subversion of justice in America,

I am a professional Wall Street short seller who is known as the Pioneer of Information Arbitrage. In 1996, I became the first investor to harness the power of the Internet to expose corruption on Wall Street. Over the years, I brought substantial improvements to transparency in our capital market through the spectacular success of my short selling activities.

In 2016, after years of fighting the government in one child custody fraud after another, my life dramatically changed when the government took over my then 11-year-old daughter's, Eva's, entire life. Without an iota of rightness, gone was Eva's deeply spiritual life with me and my family. Monstrous federal government operatives allowed a politically appointed magistrate, operating in county court without neutral principles, juries, or evidence rules, to cancel Eva's wholesome private life This is just like so many the other "cancelations" that are commonplace today.

To fight back, I created Every Violation Admonished (EVA), known today as the Institute of Judicial Conduct, which is the nation's leading authority on the operation of the 1980 Judicial Conduct Act. This Act gives the American people power over the federal judges, but it can only work if Congress does its part.

I challenge you to a debate on the secret associations, secret oaths, and secret proceedings of Republicans with the Left at the US Judicial Conference and in Congress that have overthrown justice. The question I put to you is this: Do you agree that our democracy thrives on open debate and the free exchange of ideas, not secret deals to compel Americans to violate their good conscience?

Why have you not spoken out about how what goes on at the US Judicial Conference is a subversion of justice in America?

Why have you not exposed how the US chief justice, a position held by John Roberts, Jr., comes with five executive powers that provide

I am repulsed by your plan to hide behind the GOP's bureaucracy and by your failure to deal with the Left's defamatory white supremacy fabrications, hatred of western civilization and Judeo-Christian beliefs, and warped notions of equality. For me, a Cuban refugee who then experienced the Communist takeover of Venezuela and of my own family, this is about preserving American prosperity, independence, and freedom. For you, it is business as usual.

I look forward to debating these matters with you before the executive committee of the Republican Party of Clay County. Thank you and God Bless America.

Sincerely,

Identification of DOJ and FBI Officials Who Subverted Justice in the Investigation of Evidence and Allegations of Fraud in the 2020 Presidential Election and Certification of the Electoral Votes

US Constitution Article II, Section 3:

[The President] shall from time to time give to the Congress Information of the State of the Union, and recommend to their Consideration such Measures as he shall judge necessary and expedient; he may, on extraordinary Occasions, convene both Houses, or either of them, and in Case of Disagreement between them, with Respect to the Time of Adjournment, he may adjourn them to such Time as he shall think proper; he shall receive Ambassadors and other public Ministers; **he shall take Care that the Laws be faithfully executed**, and shall Commission all the Officers of the United States.

On January 23, 2021, 3 days after the President Biden's inauguration, US Senator Richard J. Durbin the majority leader of the Senate Judiciary Committee Democrats sent a letter to the head of President Biden's Department of Justice (DOJ) launched an investigation into President Trump's subversion of justice in the investigation of the results of the 2020 Presidential Election.

Senate Judiciary Committee Democrats' report cites no authority to question the president's sole and exclusive personal authority to take Care that the Laws were faithfully executed in the 2020 Presidential Election process and results, and the certification of the electoral votes.

The chief of the President's Office of White House Counsel, William P. Barr, and Jeff Rosen, the former and the acting US Attorney General who controlled the policy of DOJ and management the DOJ under the President's authority to ensure the DOJ operates for the American People and in accord to the President's constitutional authority to take Care of that the Laws be faithfully executed allowed a group of "Never-Trumper" Officials that included the heads of the Public Integrity Section (PIN) and the Election Crimes Branch (ECB) and the director of the FBI took upon themselves the power to interpret the take Care of Laws clause of the US Constitution and took it upon themselves to reject Barr's November 9, 2020 memorandum, order with and under Presidential authority, to investigate allegation of election fraud "**prior to the certification of the elections**" at the state level.

Barr's directive clearly rejected the **Corey Amundson's**, Head of the DOJ's Public Integrity Section (PIN), and Richard **Pilger's**, Head of the Election Crimes Branch (ECB) policy to be passive and to delay any investigation on election-related fraud allegations under private non-DOJ related litigation was still ongoing.

None of the allegations and evidence of elections fraud reaching a jury in any US Courts, or the US Supreme Court.

During the Trump administration, federal district court judges entered over 50 nationwide so called “open border” injunctions against the president’s management of the nation’s borders and immigration without no authority to do so. This includes deny the president the right to ask the citizenship question on the 2020 Census that only Obama had removed.

Amundson and Pilger allowed election fraud to take its course without authority and led an insurgence by members of the DOJ including those charged with acting as the President’s legal advisor and the chief of the President’s White House Counsel. In the mist of these actions, Barr resigned.

These are the circumstances that existed at the time Vice President Mike Pence took it upon himself to appear before Congress and certify the electoral voting of the 2020 Presidential Election on January 6, 2021.

OPEN LETTER REGARDING FEDERAL GOVERNMENT'S SUBVERSION OF JUSTICE IN THE 2020 PRESIDENTIAL ELECTION TO KAT CAMMACH

January 19, 2022

Vice Chairman Jett,

On behalf of Manuel P. Asensio, I acknowledge receipt of your email from January 14, 2022, providing notice of the meeting to be held by the executive committee of the Republican Party of Clay County at 7:30pm at the Town Hall of Orange Park 2042 Park Ave Orange Park FL 32073 on Monday January 24th, 2022. I am concerned that Mr. Asensio's time is limited to 5 minutes for reasons I will detail in the following paragraphs.

There are a set of profoundly serious factual and policy disputes between Mr. Asensio and Kat Cammack that must become known to the members of the Executive Committee and openly discussed before they can fairly cast their votes. These pressing issues are of fundamental importance to both my candidate's campaign and to what he believes must occur in the upcoming 118th Congress.

Attached is Manuel P. Asensio's 8th Open Letter to Kat. Kat has not replied to any of the paramount issues that Mr. Asensio has brought to her attention thus far. The letters to Kat are available on his campaign website under the "Open Letters" tab.

The Open Letters page has an introduction that reads as follows:

"Asensio's campaign seeks to discover the truth. The purpose of America's Constitution is to protect our God given right to liberty, private property, and truth from government corruption. An open dialogue between myself and the incumbent is fundamental to discovery of the truth. Voters must know who we are and who is running based on each candidate's plan to deal with the subversion of justice in America, the Left's great lies about America, their political and legal absurdities, and their passive about election integrity and political corruption. Here, I take my irrevocable stance against my opponent's passive, "let it be"

policies. Here are my Open Letters to the incumbent and others related to our policies and conduct.”

Mr. Asensio has spent the past 11 years of his life investigating and taking actions against the corruption of government by the Left. The facts that Mr. Asensio has collected show the extent of the subversion of justice in our nation’s family law systems. Mr. Asensio reacted by founding the Institute of Judicial Conduct (see the [website](#)), which is today’s leading independent authority on federal judiciary policy and the Judicial Conduct Act of 1980.

In early 2016 Mr. Asensio’s then 11-year-old daughter, Eva, was wrongfully taken from him by a lawless and prejudicial federal policy. In the space of ten minutes, Mr. Asensio’s daughter’s home life with him and his family was extinguished. There was nothing that Mr. Asensio could do to defend against the subversion of justice that Congress has allowed the federal judges to create in the nation’s family law courts. Pained and angered beyond measure, Mr. Asensio made it my life’s mission to expose how this happened in America and how to end it.

Mr. Asensio’s anguish is congruent with the pain that the American people feel daily as they, too, fall victim to corruption. It’s no secret that the results of the 2020 election were fraudulent. If Donald Trump and all who voted for him can fall victim to the subversion of justice, then why is no one, especially not Kat Cammack, doing *anything* about this? Why must the Leftist takeover strip our people of their democratic power to vote for their chosen leader? Why is a communist movement allowed to take innocent children away from their own fathers who are left with no defense?

By fall of 2019, Mr. Asensio had discovered that President Trump was being deceived by his federal judiciary policy advisors. IJC is the only independent organization that studies the former US Attorney General William P. Barr’s 2019 policy speeches on the federal judiciary. Mr. Asensio discovered gross discrepancies between Barr’s policy statement and his management of the Department of Justice’s dealings with the federal judges. Feel free to read details about this matter on his IJC website.

Armed with this understanding, Mr. Asensio was able to cut through all the nonsense and bureaucratic manipulations to see clearly that President Trump was being set up for a fall. Having

both suffered a decade of painful separation from his only and beloved daughter and witnessing the disempowerment of Trump, Mr. Asensio wrote, produced, and directed a comic book titled “Trump Unites All Americans”. It illustrates, in an entertaining way, what had happened to Eva, Trump, and the overall impact that the subversion of justice in America.

Mr. Asensio published the comic book and served it on Barr, Roberts, and the leaders in President Trump’s White House staff during the height of the events that ruined the integrity of the 2020 Presidential Election. You can see the comic book “Trump Unites All Americans!” [here](#).

Mr. Asensio is a former Wall-Street short seller and is known as the Pioneer of Information Arbitrage. He is the man that this country needs to fight this fight to the very end. America I respectfully request your official help in putting me in touch with the members of the executive committee to engage them on these issues before the Monday January 24th, 2022 meeting and before voting for their endorsement. Thank you in advance for your support.

God bless you,

Margaret Rose
